BRIEF ABSTRACT OF LETTER

NOTES AND ORDERS

NOTES—First Sheet

WD 1282—GPB—20 000—18-11 15

# Submitted to His Highness

The papers herewith submitted relate to the cost to be recovered from the Municipal Council, Bangalore City, for the maintenance of all additional electric lights installed at the instance of the Municipality

2 The capital cost of the Bangalore City electric lighting was met from the State Funds, and the Municipality are now paying a sum of Rs 20,000 for the maintenance of all the lights originally installed The average rate per lamp comes to Rs 14 35 per annum

3 All additional lights subsequently installed in the City at the request of the Municipality are being - charged for at Rs 30 per annum, their initial cost being met by that Body

4 A question arose as to whether the cost of additional lights, required to be put up in places of public resort like the Cubbon Park, and of their maintenance should not be borne by Government, as the Municipality were unwilling to pay for them

5 In order that the incidence of lighting charges may be made uniform and fixed at a rate reasonable both to the Electric Department and the Municipality, a Committee was formed composed of (1) the Secretary to Government, Public Works Department, (2)the Honorary President, Municipal Council, and (3) the Chief Electrical Engineer, with the Assistant Financial Secretary as Secretary to the Committee

6 The recommendations of the Committee, which met on the 18th April 1917, are as set forth in their Proceedings dated the 10th May 1917 and embodied in the Public Works Secretary's Note dated the 11th July 1917. All of

(3)

them have been accepted by the Municipality They have also been approved by the Members of Council These recommendations may be graciously sanctioned
